

Vacuum Filter Machine

Main Features:

- Vacuum oil filter machine, can rapidly separate kinds of contaminations such as metal impurities, carbon residues, colloids, suspended and emulsified matters from newly produced oil, always a good partner of oil press machine.
- Suitable for all kinds of edible oil purification, e.g. peanut oil, flax seed oil, sunflower oil, sesame seed oil, rapeseed oil, coconut oil, walnut oil, soybean oil etc.

Working Process:

- First the oil flow onto the filter cloth, the vacuum suction pump works to suck the oil into the tank through the filter cloth, which will filter out kinds of impurities and makes the output oil clean and pure/natural.

Machine Specifications:

- Model No: GT-VF10
- Type: Mini Commercial
- Capacity: Up to 8-10 kg/hr (depending on sediment)
- Pump Power: 1 HP (750W)
- Voltage: 220~240V (single phase)
- Body Color: Silver-SS stand / Gray-MS paint coated stand
- Body Material: #304 SS (or) MS
- Contact Part: #304 SS & AL paint coated (corrosion protected)
- Net Weight: 40 Kg
- Gross Weight: 55 Kg
- Dimension: 480*380*660mm

Machine Inclusive

- Filter cloths
- Sediment removal (Spoon Shovel)
- Hex nut-opener spanner
- User manual/warranty card (1 YEAR FOR PUMP)
